

April 2020

Masiphumelele, Südafrika

Dear friends!

Best wishes from Masiphumelele. **"Giving is more blessed than receiving"** (Acts 20 V 35). This was the motto for the preparation of the last week for our first relief action. Our anticipation was great that we could relieve the distress of 39 families. The nerves of many families are bare. Hundreds of people are waiting all day in all corners of the township for food parcels from the government or an NGO.

Last Friday was the day. We provided for each family of our children with several bags full of food and hygiene products. How great was the joy and gratitude. One mom immediately broke down in tears. She stared stunned at the full bags. She had not expected this.

It was wonderful to see our children on this occasion. We all miss each other very much already. The older children took our schoolbooks home to study. We are happy to see that they are using the time to continue learning.

Somila's mother told us how frustrated he was that he couldn't celebrate his birthday at Clever Kids because of the lockdown. She had no money for a cake or a present. The enthusiasm was great when we surprised him with a cake, gift and a song. He turned 10 years old.
